GAINESVILLE, FLORIDA, SUNDAY, APRIL 25, 1909

TEN CENTS A WEEK

INSURANCE BILL VOTED DOWN BY THE SENATE

Senator McCreary's Bill Relative to Fishing and Hunting Discussed at Some Length.

TALLAHASSEE, April 24.—After over an hour's debate, the Senate Friday morning killed the McMullen insurance bill by a vote of 22 to 7 on final passage. The bill was for the removal of the tax of 2 per cent of premiums paid on policies in the State in insurance companies operating under the laws of Florida.

Senator Dayton, Senator Johnson and Senator Harris spoke at length against the bill. It was argued that it was unconstitutional and Mr. Harris also argued that the State is not in a position to face even a slight loss in revenue at the present time, as it faces a deficit now of hundreds of thousands of dollars.

Senator McMullen and Senator Massey each defended the bill, claiming it to be constitutional and also agreeing for the encouraging of home industries.

Senator Cone spoke at length for the bill, claiming that the great insurance tax pours millions of dollars annually into the treasuries of the Northern companies from the Southern States.

The bill was lost, however.

Senator McCreary's Bill.

Nearly three-quarters of an hour was also taken up in a debate over the McCreary bill regarding the right of entry on lands for fishing or hunting.

Senator McCreary warmly defended the measure, but it was hard fought by Senator Williams and others. It did not come to a vote for passage, as the Senate moved on to other business without finishing its consideration.

Routine Proceedings.

Twenty-nine members were present when the Senate met at 10 o'clock.

Senator Cook rose to a question of personal privilege and asked to have his vote registered against the prohibition amendment.

Introduction of resolutions:

Senate Resolution No. 34, Henderson, for adjournment until Tuesday, as Monday is Memorial Day. Senator Broome amended to meet Saturday but not Monday, adopted.

Concurrent Resolution No. 35, Beard, commanding lecture on Confederate Navy by Judge A. O. Wright.

Insurance Bill.

Senate Bill No. 15, McMullen, exempt-

ing insurance companies organized in Florida from paying to State Treasurer 2 per cent of the gross amount of receipts of premiums from policy holders in the State, was taken up as an order of the day.

Senator Dayton stated that the State is now involved in deficiencies amounting to hundreds of thousands of dollars and objected to loss of revenue that would result from the passage of the bill. He also held the bill to be unconstitutional.

Senator Massey cited from United States Supreme Court decisions to prove that the measure is constitutional. He pointed out the enormous volume of premiums pouring out of Florida into the treasuries of the foreign companies and urged the protection of the home companies. He held that the same people who opposed the railroad revenue bill in the last Legislature are opposing this measure.

Senator Johnson claimed that Senator Massey was not correct and opposed the bill.

Senator McMullen referred to the recent Waters-Pierce oil case in the supreme court and other cases, showing that his construction of the clause under discussion is correct. That there is no question of legality, he declared to be a fact.

Senator Harris opposed the measure. The serious financial condition confronting the State was pointed out by him. He held that the bill wouldn't benefit the poor man but the corporations instead. "I yield to no one my desire to protect home industry," he said "but we are not in a position to do this now."

Senator Cone moved and Senator McMullen seconded, that bill be placed back on second reading for amendment. Lost.

Senator Cone then spoke in behalf of the measure. He urged the encouragement of home industry, especially where the great insurance tax pours millions annually from the South into the North. He referred to one Florida company, whose stock is owned by the people of all classes. He urged that the tax be raised on foreign companies, rather than not to protect home companies.

Senator Miller opposed protection of

BEANS AND CUKES ARE NOW MOVING

GAINESVILLE WILL SOON BE SHIPPING CAR LOTS.

Canvass Growers Will Be Cutting Heavy for Next Several Days. Good Prices Received.

Cucumbers and beans are now moving from this section at a rapid rate, and within the next few days it is expected that they will be leaving this section in car lots.

Growers that have protected their crops have been shipping for some time, but the majority of them are just now beginning to get to where they can cut a hundred baskets each day, and with next week they will get off a large amount of cukes.

Beans are also numerous in this section and are selling in the local market at 5 cents per quart. Hundreds of baskets are being shipped each day of both the green and wax varieties, but the prices are very low on this vegetable.

A special "cuke" train will soon be placed in commission by the Seaboard and it will, within the next two weeks, carry out daily something like ten cars from this point.

Movement from the south is also heavy with the growers, two solid cars passing through Gainesville Saturday.

one section of the country against another and opposed the bill.

Senator Humphries opposed the measure.

Motion to recommit was lost.

The bill was lost by a vote of 22 to 7.

Senator Beard had his statutory bill for prohibition set for a special order for next Thursday.

Bills on third reading:

Senate Bill No. 121, by Henderson—Made special order for Wednesday at 11 o'clock.

Senate Bill No. 14, by Dayton—for relief of George R. Carter, sheriff of Citrus county for loss of fees. To be considered.

Senate Bill No. 132, by Davis by request—Preventing sale or giving away of weapons to minors under 16 years of age. On table subject to call.

Senate Bill No. 165—Relating to the right of homestead. To third reading.

Senate Bill No. 30, by McCreary—Relating to entry on enclosure to hunt or fish. Senator McCreary spoke in behalf of the bill.

Miscellaneous Business.

After a long argument the Senate passed to the head of miscellaneous business.

Senate Bill No. 228, by Williams—Relating to duties of section bosses relative to killing of live stock.

Senate Bill No. 229, by Flournoy—Relative to condemnation proceedings.

Senator Beard moved to reconsider vote to adjourn until 4 o'clock. Carried.

Senator Beard then moved that his disfranchisement measure be made a special order for Thursday at 10:30.

JONESVILLE NOTES.

JONESVILLE, April 24—Mr. and Mrs. Joseph Jones spent Thursday in Gainesville.

Miss Winnie Dudley is visiting relatives at Newberry this week.

W. J. Hamilton of Newberry and J. I. Griffin were out Wednesday taking the encroachments of the church, so as to have the full of lumber sawed for the new church building.

We are having the cemetery fence repaired which will add greatly to its appearance.

Rev. Wilson Griffin will fill his regular appointment here the first Sunday in May at the Jonesville new school building. Everybody cordially invited to attend.

GAINESVILLE BOARD OF TRADE TO INCORPORATE

Organization Is Now Working For Many Things to Advance City's Interests.

The Gainesville Board of Trade is to be incorporated, and the necessary papers for this end have already been forwarded to Senator McCreary at Tallahassee to have passed at this session of the Legislature.

There are a number of very important measures to come before the board within a short while that will require their best efforts, and the move to incorporate the body was deemed best, as they will then be enabled to make bids and own and control property.

Among the principal projects being worked for, and which will be concluded as soon as the board is incorporated, is a move that will place Gainesville among the leading tourist towns of the State, allowing stop-over privileges on all tickets purchased here and also giving this city a better rate than it has been accorded in the past on this class of travel.

The season just closed has been the most prosperous of this class that Gainesville has enjoyed in a number of years and it has lead members of the board to believe that such an improvement could be made, with the result they have gone to work to have the board incorporated in order to secure the desired end.

Another advantage that is now being agitated and which has already been asked for by the board, is better railway facilities to and from all western points, including Alachua and

Taylor counties along the western lines of the Atlantic Coast Line-railway.

The board has requested that the train which is now run from Citra to High Springs be changed to run from Perry as a starting point, to Citra and return daily, making the start early enough to give the western connection with the train that will be placed on about May 2nd from Ocala to Jacksonville.

If the railroad people consent to give this a trial it will be seen that a large amount of money would be brought here that now goes elsewhere, since it would give the people of that section an opportunity to come to Gainesville at much less cost and would prove beneficial to all parties concerned.

Should this prove successful, and with the improved service over the Seaboard, it will enable the people from every section to come here and return home the same day, allowing a part or all day in Gainesville, as they desire.

It will be seen by the above that the proper effort is being made to give Gainesville the very best service it has ever had in the matter of transportation, and if the Board of Trade is successful it will mean more trade for this city than ever before.

The Sun, along with hundreds of others, trusts that the board will be successful in the undertaking.

Husband Held the Gun While Wife Pulled Trigger

HATTIESBURG, Miss., April 24—

Mrs. Minnie Crosby has confessed before the coroner's jury here that she pulled the trigger which sent the contents of a double-barrel shotgun into the head of J. R. McShane, whose decomposed body was found in a secluded spot near the Bouie street bridge in Leaf river swamp.

She sobbingly admitted that she had been intimate with McShane, having met him upon numerous occasions close to the spot where he was killed. She said that her husband had intercepted the correspondence between McShane and herself and by threat of death, if she disobeyed, had forced her

to assist in decoying McShane into the swamp where he might be slain.

When McShane kept the appointment he had made with Mrs. Crosby, near the bridge on Easter Sunday, his greeting was interrupted by the order of her husband, who emerged from a clump of bushes, to throw up his hands. Mrs. Crosby says her husband then levelled his gun upon McShane and compelled her to pull the trigger. The full charge of the gun struck McShane in the mouth. He ran a few steps, moaned pitifully, and fell, expiring almost instantly.

McShane recently came here from Alabama. He was a young brick mason.

Castro Says United States Will Repent of Its Action

ST. NAZARE, April 24—Cipriano Castro, until recently president of Venezuela, reached this port yesterday aboard the steamer Versailles, having been brought back to this country by order of the French government, which would not permit him to remain at Fort De France when he attempted to make that place the base of his further operations to reclaim his lost prestige in his native country.

Castro, known paper men, investigated again the United States for its part in his deportation to France. He charged the United States with playing into the hands of his enemies in Venezuela and sending warships to that country to intercept him. He declared that Venezuela was lied if the people

submitted like slaves to foreign mediation.

Passengers on the Versailles say that when Castro was brought on board the steamer at Fort De France, he declared that if he had been allowed to make his way to Venezuela he would soon have raised an army to overthrow his enemies.

As his train was leaving for Paris Castro said:

"I was expelled from Martinique under pressure exerted by the United States. Europe soon will repent of the action taken against me. The United States has already taken Cuba and Panama and the American Government has now committed its first act against the sovereignty of Venezuela. That Venezuela was lied if the people

Six People Injured By Fierce Cyclone in Georgia

FORT GAINES, Ga., April 24.—Coming with terrible force the most terrific cyclone that has been known in this county swept through the northern suburbs of this place yesterday morning leaving desolation and destruction in its wake.

Six persons were injured, though no one was killed. The storm at first was electrical, not one drop of rain coming until after the body of the storm had passed.

The approach of the cyclone presented a fearful sight. In an instant the town was in a panic, men running about distractedly and women crying and above all the awful roar of the tornado as it swept down upon the helpless town.

Suddenly as by miracle the storm changed its course and sweeping across the northern end of town completely demolished a half dozen or more houses, the country back of the

MEMORIAL EXERCISES WILL BE IMPRESSIVE

VARIOUS ORGANIZATIONS TO ASSEMBLE MONDAY MORNING.

Graves to Be Decorated and Addresses Will Be Delivered by Dr. C. L. Crow.

Memorial Day will be fittingly observed by the Confederate Veterans under the auspices of Stonewall Camp, U. C. V., Kirby Smith, J. J. Finley and Mildred Lee chapters, U. D. C.

The ladies will meet at 9 o'clock tomorrow morning at the band stand and will at once proceed to the cemetery, where they will decorate the graves of the departed soldiers, returning to the city in time for the general address, which is to be delivered by Dr. C. L. Crow at the Tabernacle at 11 o'clock.

The entire arrangement of the program will not be completed until Monday morning, as some of the leaders among Stonewall Camp could not be seen on Saturday.

The following notices have been issued by the different organizations:

Memorial Address.

A memorial address will be delivered at 11 o'clock tomorrow morning at the Tabernacle by Dr. Charles L. Crow at the request of Stonewall Camp of Confederate Veterans of this city.

The Daughters of the Confederacy, members of the Grand Army of the Republic, the University, the schools and our citizens generally are invited to attend. The exercises will be short. HORATIO DAVIS, Commander.

Attention, Kirby Smith.

All ladies wishing to visit the cemetery to attend the placing of wreaths upon the graves are requested to meet at the band stand at 9 o'clock tomorrow morning, where carriages will be in waiting. The ladies of the chapter are also requested to meet at the band stand at 11 o'clock to attend the exercises of the Stonewall Camp in a body.

J. J. Finley Chapter, U. D. C.

Members of this chapter are requested to meet at Miller & Vidal's on Monday morning at 10:30 to attend the memorial exercises of Stonewall Camp, U. C. V. Contributions of flowers are solicited, and those having them will please send to the band stand at 8:30 a. m.

Mildred Lee Chapter.

The members of Mildred Lee Chapter, U. D. C., are requested to meet Monday morning at 10:30 o'clock in front of the store of Miller & Vidal for the purpose of attending the exercises and decorating graves of departed dead.

SANITARIUM NOTES.

The superior facilities of the Sanitarium are gradually becoming better known, and the patronage of the institution is increasing steadily. Dr. Hodges, the Medical Director, is issuing circular letters to the physicians of Florida, calling their attention to the Sanitarium as an ideal place for invalids.

Owing to the gradual increase in patronage, under the present management, Mrs. Bradley, the efficient head nurse, has found it necessary to increase the nursing corps by the addition of another trained nurse, and Miss Covington, of Jacksonville, has arrived for this purpose.

Mrs. J. E. Sims of North Gainesville has been seriously ill, but has improved decidedly since the operation was performed on her, and it is felt that she will now recover completely.

Mrs. Chas. LeCroix, who was seriously injured in a runaway some time since, is now being cared for at the Sanitarium under the direction of her attending physician, Dr. J. F. McKinstry, Jr.

Mrs. C. E. Gibson, who has been at the Sanitarium under the care of Dr. DePass, has recovered and returned home.

Casper Foster of Lochloosa has arrived at the Sanitarium, and is under the care of Dr. Colson.

The little infant of Mr. and Mrs. W. S. Williams of Miccosukee has recovered and returned home with its parents.

LETTER TO DR. WATSON PORTER,
Gainesville, Florida.

Dear Sir: Suppose you are growing an acre or two of cabbage; where'll you get your seed? The price of Long Island seed is \$2 lb; the Germans send over tons of "cabbage-seed" 50c pound.

Most gardeners buy the German seed; of course, you know they wouldn't pay \$2 for cabbage-seeds, when they could get it for 50c. And that's how people do about everything.

Careful people buy the smaller package of each, count-out 100 seeds of each, and grow them a week in a hot-house; then count their plants. They've got 100 Long Island plants and 10 German.

How, do you think, the Long Island cabbage-seed-growers account for that? They'll tell you the German seed is mostly turnip, which looks like cabbage, but isn't.

Why didn't the turnip-seed grow? The Germans had killed it, baked it. What did they bake it for? Dead seeds tell no tales.

There's a whole business in killed seeds. A dealer can get all the dead seed he wants, that look like cabbage and something else; he can mix 'em with actual seeds, a pound to an ounce, and sell you your seeds at whatever price you like to pay and whatever profit he likes to take.

The same with paint; you can paint with whitewash or paint, poor paint or good; you can pay your painters \$3 a day for brushing it on. But whitewash is whitewash, poor paint is poor paint, and good is good.

You'd better buy good, and pick-out your good by the number of gallons it takes to cover a job; least gallons, best paint; least gallons, least cost by \$5 a gallon; least gallons, most wear.

Better buy Long Island seeds, but try 'em first. Better buy Devoe, but try it first. Yours truly,

F. W. DEVOE & CO.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says The Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all druggists.

Two Live-Wires Connected.

R. E. Lartigue and J. L. Weinberg have formed a copartnership to do a real estate business in this city, and propose to make the abstract office one of the busiest places in the town. All holders of real estate would do well to list with them—they will advertise extensively throughout the entire country, endeavoring to bring homeseekers and winter visitors to this city and county. Don't delay—see them now.

BETTER BUY GOOD, AND PICK-OUT YOUR GOOD BY THE NUMBER OF GALLONS IT TAKES TO COVER A JOB; LEAST GALLONS, BEST PAINT; LEAST GALLONS, LEAST COST BY \$5 A GALLON; LEAST GALLONS, MOST WEAR.

BETTER BUY LONG ISLAND SEEDS, BUT TRY 'EM FIRST. BETTER BUY DEVOE, BUT TRY IT FIRST.

COMPLIMENTARY BALL.

Tendered at Elks Club in Honor of Visiting Young Ladies.

One of the most pleasant social evenings spent for some time was the ball given by several of the young men at the palatial Elks Home on West Liberty street, Friday evening, when they entertained a number of young ladies.

The ball was given in honor of the visiting young ladies, Miss Antoinette Blount of Atlanta, Ga., a guest of Miss Elise Walker; Miss Caroline Myers of Paris, Texas, a guest of Miss Lucile Colclough, and Misses Liddon and Weeks, who are guests of their sisters, Mesdames James and Sam Dell.

The music for the occasion was furnished by the Gainesville orchestra under the leadership of Prof. A. E. Wolfz, and was highly enjoyed by the large number present.

Although the evening was a warm one the electric fans and plenty of refreshments made it a very pleasant and gay evening and one that will long be remembered.

The refreshments for the evening were Mrs. Hales Mr. and Mrs. C. A. Johnson and Mrs. King of Jacksonville.

The compliments of the evening went to Mrs. Hales Mr. and Mrs. C. A. Johnson and Mrs. King of Jacksonville.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Those entering the prize contest should carefully read the club propositions in The Sun for new subscribers.

So long as Patjen does not corner the sweet potato crop, Floridians will continue to wear a smile that is child-like and bland, says The Orlando Sentinel.

The Sanford Herald says a bill will be introduced in the Legislature giving precincts the right to vote as to whether swine should run at large. That's putting local option on the hog all right.

The Seminole Land and Investment Company has acquired 35,000 acres of land in the Kissimmee valley section and will endeavor to locate a large number of new settlers upon the tract. It embraces what is known as the St. Cloud sugar plantation.

The Metropolis says a pretty face, a pleading voice and a shapely form, clothed in the latest creations of fashion, were too much for a gentleman from Oklahoma in Jacksonville a day or two since and he fell before the woman's charms to the tune of \$55. Nothing strange about that—who could refuse a creature possessing such embellishments?

The split among the labor party members of parliament in England is likely to work in favor of the liberal government. Owing to the influence of the labor party in recent general and bye elections great inroads have been made in the liberal vote and many seats have been lost in consequence. Disunion in the labor party will reduce its influence in future elections.

The gross indecency of many plays and operas has been made possible by the favor shown by so-called high society, much of which revels in moral filth and under the specious guise of promoting "art" encourages a vicious stage. When wealthy people in their silks and satins, posing as leaders of refinement and society, countenance such exhibitions it is little wonder that others follow their example.

The Pensacola Journal is heartily in favor of a Constitutional Convention. "Above all," says The Journal, "when called let only those be chosen as delegates who will be the most competent to handle so important a matter both because of their natural intelligence and education in government principles. With the best constitutional work of the centuries before it, Florida is in a position to secure the most effective set of basic laws ever adopted by a State."

The resolution adopted by the Legislature providing for an amendment to the constitution for submission of the prohibition question to the people of the State at the next general election, which according to the constitution will be held on the first Tuesday after the first Monday in November, 1910, also provides that should prohibition carry at this election the law shall not be enforced until after six months shall have elapsed from the time the date of election. This provision was made, it is stated, in order to allow the saloon men ample time in which to dispose of their stocks.

INCREASING VALUE OF ROSIN.

Washington authorities state that for the first time in the history of the naval stores industry, the production of resin in the United States during 1908 led turpentine in value.

Since the introduction of improved methods of handling the great yellow pine forests of the Southern States the comparative value of resin has advanced by leaps and bounds. In 1900 the value of turpentine exceeded the value of the resin production by more than \$9,000,000 and in 1905 by nearly \$6,500,000. By 1907 the value of the output of the secondary product advanced to the point where it was less than \$1,000,000 under the value of turpentine and last year its value jumped to first place in the naval stores output where it was \$3,500,000 over the value of the turpentine production. The following figures give a graphic idea of the rise of the product in value:

Year	Turpentine	Rosin.
1900	\$14,960,255	\$ 5,129,268
1905	15,170,499	8,725,619
1907	18,283,309	17,317,659
1908	14,112,377	17,782,509

Rosin finds increasing use in many industries. The finest grades, which are valued according to their degree of clearness, are used in the manufacture of soaps, fine varnish and for "sizing" in the manufacture of paper. The medium qualities are mostly consumed in making yellow soap, as a flux for solder, as a constituent of sealing wax, with tallow for common candles, and in pharmacy. The lowest qualities of resin are used for pitch in ship and boat building, for brewer's pitch in sealing the heads and staves of barrels which hold liquids, and for the distillation of resin oil which enters into the manufacture of lubricating materials. With these varied and ever-increasing uses it is easy to see how the annual consumption of resin last year amounted to more than 4,250,000 barrels, valued at nearly \$18,000,000.

The great decline in the prices received for turpentine in 1908, while the prices for resin were ranging more in conformity with those of the preceding year, has much to do with this condition, but there are other causes which combine to lend interest to this climax in the general trend of advancement in the value and importance of this product of the naval stores industry.

That the general improvement in the grades of resin, produced by a more general use of improved methods of turpentining, is responsible to an appreciable extent for the increase in the value of the entire resin output is unquestioned, according to men familiar with the trade. Another cause for this condition is the constantly increasing demand for resin, and especially the paler and more valuable grades both in this and in foreign countries.

Some of those at present engaged in the manufacture of naval stores remember the time when they found it unprofitable to preserve the residue of the turpentine still—resin. A few years preceding the Civil War there were few uses for resin and only a slight demand. During that period resin was permitted to accumulate with other discarded and valueless refuse about the turpentine still. But gradually has the demand for resin increased and year by year it has been climbing higher in the scale of value and importance, until it has succeeded in passing turpentine, the heretofore vastly more valuable and more important product of the naval stores farm.

The position which resin has assumed in the naval stores markets argues well for increasing the use of conservative methods which have resulted to such a great extent in increasing the value of the resin by producing paler grades. No agency has been more potent and none can be used to greater advantage in an effort to encourage conservative turpentining than the knowledge that paler and more valuable grades of resin is one of the most pronounced results following its use.

Now that naval stores operators realize that resin is no longer to be classed as a secondary and inferior product of the still and appreciate the growing necessity for improving the grade, trade authorities say there should be a decided increase in the use of the cup and gutter or the cup and apron system for extracting the resin from the trees.

Tomorrow will be observed as Memorial Day.

A MATTER OF DOUBT.

Should William Jennings Bryan and Congressman Clark meet for a discussion of each other before the Florida Legislature, the eye of the entire political world would be focused on Tallahassee.—Gainesville Sun.

But the figure of Clark would probably be left out of the tout ensemble after the Nebraskan had wiped up the earth with him.—Pensacola Journal.

The Tribune is not so sure about that. It is of the opinion that, on his native heath and in the midst of his friends, Mr. Clark would be amply able to overcome whatever superior experience Mr. Bryan may have as a debator and conversationalist and the elimination of Frank Clark would not be accomplished with the ease The Journal seems to imagine. In fact, The Tribune doesn't believe there's a man living who could "eliminate" Frank Clark in a joint debate. He is amply able to take care of himself, even against a speaker of the calibre of Mr. Bryan.—Tampa Tribune.

CURRENT COMMENT.

The Indianapolis News (Ind.) says: "It now looks as if taking the tariff off Standard oil products would be a good deal like taking candy from a baby, as far as the ensuing bawling protest is concerned."

The Montgomery Advertiser (Dem.) says: "If the opening speech of Senator Nelson M. Aldrich is a sample of what the Republicans are going to produce in the tariff debate in the Senate, it is their evident purpose to beggar the Democrats with figures and lead them away from the right into a mystic maze of statistics. The speech of Aldrich had about it all the freshness and interest of a treasury report. The Democrats had better be on their guard against a flood of figures and tables."

It seems to be a sort of diversion to the Turks to kill Armenians at somewhat frequent intervals. The revolution in Turkey last summer promised some respite from these outrages, but the counter-revolution now in progress has revived them and they will probably continue.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an unnamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Clubs Coming Into The Sun, Besides
the Merchants Are Increasing
Their Business.

The first five days of voting for the handsome prizes offered in the Co-Operative Contest shows up remarkably well and the candidates have entered with the proper spirit, knowing that it will take some work on their part to win.

By a careful perusal of the advertisement all particulars can be obtained governing the contest and the candidates in the country districts who do not have the opportunity of visiting the city daily could not improve their candidacy better than to work among the "home folks" and remind them where they can secure votes when they are in Gainesville, and at the same time work for The Sun, as many votes can be gained in this manner.

The contest has been on for less than a week, but there are now eighty-five candidates in the race, including all sections, and it is known that several more will enter within the next few days.

Not only does The Sun give votes on subscriptions, but all orders for job work or advertising will count when the bill is paid. Read over the list of business firms that are in the contest and remember them all when you are canvassing for votes.

The handsome diamond ring has been ordered and will be placed on exhibition in the show window of L. C. Smith, on the north side of the square, and the two pianos will be placed, one each in the show windows of the Gainesville Hardware Company and the Gainesville Furniture Company, where they can be seen and examined as soon as they arrive, which will be about four or five weeks, as they will come direct from the factory.

Following is the vote at 4 p. m. Saturday evening:

Newbro's Herpicide

IS PRAISED BY

PAULA A. EDWARDES

HERPICIDE CO.

PAULA A. EDWARDES

Paula A. Edwardes, the well known theatrical star, writes as follows:

"I am charmed with Newbro's Herpicide. It is a refreshing hair remedy, producing a beautiful luster and a luxuriance of growth; at the same time keeping the scalp free from dandruff."

"Very truly yours,
New York City. (Signed) PAULA A. EDWARDES."

Good results from the use of Newbro's Herpicide mean as much to one person as to another, but on the other hand the fact that leading theatrical stars prefer Newbro's Herpicide is an important point in its favor. Professional people have an inclination and an opportunity—not enjoyed by others—to discriminate in their choice of toilet remedies and their opinions should not go unheeded.

The extraordinary success of Newbro's Herpicide is due to the simple fact that it *kills the dandruff germ*. While other remedies treat the disease that results in hair loss, Newbro's Herpicide destroys the *cause of the disease*, after which nature grows the hair, if it is not too late.

Chronic baldness cannot be cured, but before the hair follicles are too badly diseased, one can, by careful treatment and intelligent sanitary care, keep down and ultimately destroy the tiny vegetable growth (dandruff germ) whose continued presence in the sebaceous glands of the scalp means hair destruction.

Ladies become enthusiasts over Newbro's Herpicide, because it brightens up the hair and keeps it light and fluffy.

Stops itching of scalp almost instantly.

Delightfully refreshing.

AMUSEMENTS

The various young men of this city who are to take part in the Gainesville amateur vaudeville show, on May 3rd, are now hard at work rehearsing their parts, practicing their songs and going through other "gyrations" necessary to the perfecting of a first-class amateur production.

A show, strictly vaudeville, will be something of a novelty in Gainesville. There will be acrobatic work, a black-face monologue, an Irish character sketch, a comedy farce, a one-act college drama, musical acts, dancing and other forms of amusement.

The show will be under the direct supervision of Mr. Arthur Allen, late of the Keith & Proctor Vaudeville Circuit. As a black-face artist and Irish comedian he has few equals, being rated as one of the best in the East.

In order to stimulate interest and encourage attendance, the management has decided to offer a prize, consisting of a handsome toilet set, to the young lady selling the largest number of tickets to the show. The contest begins at 10 a. m. tomorrow and closes at 6 p. m. the following Monday.

Tickets can be had by applying to Mr. Kirby at Hyde & Tench's shoe store after 10 a. m. tomorrow.

The prize can be seen in the window of Messrs. C. H. Coles & Son.

A Baby Show in Gainesville

Would have many contestants; but it's safe to say that the healthiest baby would win the prize. No baby can be healthy who suffers from worms, and most babies do unless they are kept free from them with White's Cream Vermifuge. Acts quickly, yet mildly—is its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. Price 25 cents. Sold by W. M. Johnson.

Banks Will Close.

Monday being Memorial Day, the banks of Gainesville will be closed throughout the day. The public will be governed accordingly. The post-office will also observe the usual Sunday hours.

Objects to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties.

When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all druggists.

In a Safe Place.

"We have a man in this prison who never tried to escape," declared the head keeper.

"What's he in for?" inquired the visitor.

"Diggity," replied the head keeper, Bohemian.

Eminent Authorities Say

That outdoor exercise is needed by the American people. That's all very well, but how can people with rheumatism follow that advice? The answer is very simple: use Ballard's Snow Liniment and the rheumatism will go, leaving you as spry as a colt. Gives quick and permanent relief from rheumatism, neuralgia, lame back.

FREE TO YOU—MY SISTER

Free to You and Every Woman in the Land.

I am a woman.

I know woman's sufferings.

I will tell, free of any charge, my home treatment in full instock, to all women who suffer—my mother, or your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whitish Discharge, Ulceration, Displacement or Falling of the Womb, Prolapse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder trouble, where caused by weakness, peculiar to our sex.

I want to give a complete ten days' treatment entirely free to prove to you that you can cure yourself at home easily, quickly and surely. Remember, that it will cost you nothing to give the treatment to continue. It will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectively cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

A Hurry-Up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies—when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles are sold annually. There is but one Painkiller, Perry Davis'. Have you seen the new large 35c size?

IT'S FRESH EVERY DAY!

The Bread, Pie and Cake you eat should be nutritious. The finest flour, mixed with pure rich milk and baked in the "purity fashion," make our goods the most delicious it is possible to produce.
